SUMMARY

Senior Product Designer with experience designing digital products, enterprise applications, and evolving design systems across enterprise environments, products, and teams. Combines systems thinking, interaction design, and AI-assisted workflows to transform ambiguous problems into scalable, production-ready solutions.

PROFESSIONAL EXPERIENCE

Visual Designer

Florida Blue | November 2022 – June 2025

- Designed enterprise healthcare experiences across web, mobile, and member service platforms.
- Created implementation-ready wireframes, prototypes, and developer specifications in Figma.
- Applied WCAG accessibility standards across enterprise workflows and reusable components.
- Collaborated with product, engineering, compliance, and accessibility teams to deliver scalable and targeted UX solutions.
- Solved complex product requirements by maximizing existing design system patterns, minimizing new component creation, and delivering implementation-ready user flows.

Increased payment conversions 30% through UX improvements and purchase flow optimization.

UX Designer

Allin Interactive | September 2014 – June 2019

- Designed responsive web and native app interfaces aligned to platform guidelines.
- Created wireframes, low- and high-fidelity mockups for enterprise clients.
- Prototyped communication feature improving engagement and product adoption.
- Mentored a team of three UX designers on established UX design workflows.

Partnered with cross-functional teams including account managers, IT, and implementation.

Webmaster American Welding Society	06/2007 - 12/2009 Miami, FL

FEATURED PROJECT

DESIGN INSPECTOR

Interactive HTML Prototype

An interactive prototype built to visualize component inspection across tokens, states, classes, accessibility, and user contexts.

Designed to help teams validate design decisions and focus collaboration on what matters.
